

Property Flood Protection Assessments

Do you live in an area that is prone to flooding? Shropshire Council is working hard to manage flood risk across the county and is busy learning about the flooding issues that affect different areas.

As part of its approach, Shropshire Council is offering free residential property flood protection assessments, where internal flooding has been experienced. Assessments will be carried out by an approved surveyor who is independent of manufacturers of flooding related products. An assessment will be made of the likely routes of ingress for flood water entering your property, and measures that could be used to prevent or mitigate flood damage to your home will be suggested. After visiting, the surveyor will issue a brief report outlining their findings. You can then use the report to help plan protective measures for your property. Shropshire Council can provide further guidance on the types of products that are available.

Please either complete and detach the form below and post it to: **Flood and Water Management Team, Shropshire Council, Shirehall, Abbey Foregate, Shrewsbury, SY2 6ND.**

Alternatively, email these details to: flood@shropshire.gov.uk
